** Without pay.

PUBLICATION OFFICE: Prince & Lemon Sts., Lancaster, Pa. 17604.

EDITORIAL OFFICE: Washington, D. C. **P.O. ADDRESS:** Box 1736, Washington, D. C. 20013. Telephone LIncoln 6-6734.

ADMINISTRATIVE OFFICE: **American Meteorological Society,** Office of Executive Director, 45 Beacon Street, Boston, Mass. 02108.

Address all business communications, orders and inquiries to the Executive Director, Mr. Kenneth C. Spengler, 45 Beacon Street, Boston, Mass. 02108. Exchanges and reprints may be sent direct to P. O. Box 1736, Washington, D. C. 20013.

METEOROLOGICAL AND GEOASTROPHYSICAL ABSTRACTS is a monthly publication devoted to current abstracts in English on important meteorological and geoastrophysical literature in every language.

SUBSCRIPTION RATE: Government agencies and industrial, commercial, scientific and research organizations, $400.00. Educational institutions and public libraries, $200.00. Individuals (provided that the individual's organization subscribes at the appropriate rate): non AMS members $40.00; AMS members $30.00. Back volumes: Vol. 16, 1965, Vol. 17, 1966 and Vol 18, 1967 same as above. Vol. 1, 1950–Vol. 15, 1964, $50.00 per vol.; $10.00 per issue. Special price, Vols. 1–10 (1950–1959), complete set $200.00.

Cumulative Author and Subject Indexes
(Vol. 18, No. 1–12)

Jan.-Dec. 1967

(For complete table of contents see back cover)

Published monthly at Prince and Lemon Streets, Lancaster, Pa.
by the AMERICAN METEOROLOGICAL SOCIETY
45 Beacon Street, Boston, Mass. 02108

This index was printed and bound by the Cornelius Printing Co.
Silver Spring, Md.

Issued and covers printed by: Lancaster Press, Inc.

ERRATA—VOLUME 18, 1967

Note: In the following list only more important errors are included. Discrepancies in style, punctuation, accents, capitalization, subject headings, etc., are not, as a rule, listed; nor are errors in the monthly indexes of each issue where these errors are corrected in this volume index. Errors of fact which have come to our attention, mistakes of spelling of the names of authors, and errors in title, journal entries, or pagination are included. Any errors which have been overlooked should be called to out attention (by post card, addressed to: **Meteorological and Geoastrophysical Abstracts,** Box 1736, Washington, D. C. 20013).

No. 1. p. 20, *item* 18.1–48, *line* 7, *change* van Bibber *to* van Bebber and von Hellmann *to* Hellmann.
p. 236, *item* 18.1–753, *line* 3, *insert* Institut *after* Tsentral'nyĭ.
p. 236, *item* 18.1–754, *line* 3, *insert* Institut *after* Tsentral'nyĭ.

No. 2. p. 311, *item* 18.2–143, *line* 1, *change* Clark *to* Clarke.
p. 468, *item* 18.2–651, *line* 1, *change* Grevasse *to* Grevesse.

No. 3. p. 541, *item* 18.3–67, *line* 7, *change* Assoc., C. S. *to* Assoc., C. W.
p. 631, *item* 18.3–337, *line* 1, *change* Funita *to* Fujita.
p. 644, *item* 18.3–379, *line* 1, *change* Yayane, Isamu *to* Kayane, Isamu.
p. 657, *item* 18.3–420, *line* 1, *change* Shllard *to* Shellard (drop *).
p. 689, *item* 18.3–521, *line* 1, *change* Fletcher, Joseph O. *to* Fletcher, Joel O.
p. 725, *item* 18.3–635, *line* 5, *change* Presquero *to* Pesquero.

No. 6. p. 1431, *item* 18.6–425, *line* 1, *change* Tanaka, Toyoaski *to* Tanaka, Toyoaki.

No. 7. p. 1596, *item* 18.7–136, *line* 2, *insert* 576 p. *after* 1967.
p. 1767, *item* 18.7–673, *line* 1, *change* Lüst, Phea *to* Lüst, Rhea.

No. 8. p. 1855, *item* 18.8–102, *line* 1, *change* Simms *to* Sims.
p. 1943, *item* 18.8–374, *line* 2, *change* 234 p. *to* p. 193–234.
p. 1967, *item* 18.8–450, *line* 2, *change* Antarctic *to* Antarctica.
p. 1985, *item* 18.8–508, *line* 1, *change* Chatonnet, J. *to* Chatonnet, P. J.

No. 9. p. 2241, *item* 18.9–487, *line* 1, *change* Orlič *to* Orlicz.

No. 10. p. 2364, *item* 18.10–88, *line* 1, *change* Shalaeva, Z. K. *to* Shalaeva, E. K.

No. 11. p. 2604, *item* 18.11–5, *line* 3, *change* Siianii *to* Siianiia.
p. 2618, *item* 18.11–46, *line* 4, *change* (since 1959) *to* (since 1950).
p. 2695, *item* 18.11–288, *line* 1, *change* izanomal 1000–500 mb *to* izanomal OT $^{500}_{1000}$
p. 2741, *item* 18.11–419, *line* 1, *change* Zabail'ia *to* Zabaĭkal'ia.

No. 12. p. 2904, *item* 18.12–59, *line* 7, *change* 3680, 1963 have imprint *to* 3680 have 1963 imprint.
p. 3116, under Sea Ice, *line* 2, *change* 18.12–678 *to* 18.12–676.
p. 3118, *item* 18.12–720, *line* 2, *change* sudlichen *to* südlichen.
p. 3129, *item* 18.12–753, *line* 1, *change* obosnovania *to* obosnovanie.

CUMULATIVE AUTHOR INDEX

Vol. 18, No. 1-12, Jan.-Dec. 1967

Note: In this index, author entries are arranged alphabetically and, under each author, the titles are likewise arranged alphabetically by the first word (other than an article) of the original title. The translated title is placed in brackets after foreign language titles, except for French, Italian, Spanish and Portuguese. Authors whose names begin with an article or preposition (van, de, di, le, la, etc.) are generally indexed under that article or preposition. Cross references indicate variations from that practice, or possible alternate entries. All titles are listed under the first author. Co-authors, if any, are mentioned after the title. This simplifies arrangement of titles under any given author. Separate indexes are provided for contract reports (by contract, grant or project number) and for translations (by author).

The input data for this index has been processed by automatic data processing equipment. The text was prepared by the MGA staff for photo-typesetting using a remote terminal time-shared data processing system.

CUMULATIVE TRANSLATIONS INDEX

Vol. 18, No. 1-12, Jan.-Dec. 1967

betti, Giorgio
Stars and planets [Transl. from Italian], 18.6-5
gostinho, Jose
Notes on some tsunamis of the Azones [Transl. from French], 18.3-687
kademiia Nauk SSSR
First panoramas of the Lunar surface according to the material from the automatic station Luna-9 [Transl. from Russ], 18.2-582
Investigations of the upper atmosphere and outer space carried out in the USSR in 1964, [Transl. from Russ], 18.9-1
kademiia Nauk SSSR. Astronomicheskii Sovet
Optical instability of the Earth's atmosphere (*with* **Pulkovo. Astronomicheskaia Observatoriia**) [Transl. from Russ.], 18.8-533
kademiia Nauk URSR, Kiev
Physics of comets and meteors [Transl. from Russ.], 18.8-653
kademiia Nauk Ukrainskoi RSR, Kiev Glavnaia Astronomicheskaia Observatoriia
Physics of the Moon and the planets [Transl. from Russ.], 18.2-14
kademiia Nauk Ukrainskoi RSR, Kiev. Institut Radiofiziki i Elektroniki
Radio-oceanographic investigation of sea swells [Transl. from Russ.], 18.3-34
khundova, G. V.
Astroclimatic characteristics of the Shemakha Observatory area [Transl. from Russ.], 18.8-430
lekseeva, L. M.
Hartmann's problem for slow currents of a viscous gas with a small admixture of light ions and electrons [Transl. from Russ.], 18.3-595
likaeva, K. V.
Research on calcium luminescence in a great chromospheric flare [Transl. from Russ.], 18.5-621
ltykis, E. V.
Quantitative estimation of atmospheric circulation forms [Transl. from Russ.], 18.10-299
mbartsumian, V. A.
On the problem of diffuse reflection of light in planetary atmospheres [Transl. from Russ.], 18.10-630
On the scattering of light in planetary atmospheres, [Transl. from Russ.], 18.10-631
Anisimova, E. P.
Calculation of the coefficients of vertical turbulent heat exchange in seas and reservoirs (*with* **Pivovarov, A. A.**) [Transl. from Russ.], 18.10-676
Arabadzhi, V. I.
Climate and thunderstorms [Transl. from Russ.], 18.2-247
Astashenko, A. I.
Thunderstorm activity in the Leningrad region in 1962 [Transl. from Russ.], 18.10-333
Aujeszky, László
Problem of artificial rainmaking (*with* **Kontur, G.**) [Transl. from German], 18.4-236
Aver'ianov, V. G.
Snow accumulation and the reasons for the existence of a melting area on the Lazarev ice shelf [Transl. from Russ.], 18.8-420
Avramchuk, V. V.
Polychromatic polarimetry of light in the twilight and daytime sky at the zenith [Transl. from Russ.], 18.5-369
Results from a preliminary analysis of some spectrograms of Venus taken in April 1964 (*with* **Koval', I.K.**) [Transl. from Russ.], 18.5-574

Barabashov, N. P.
Optical properties of the Martian atmosphere from data of photometric observations [Transl. from Russ.], 18.5-576
Baranov, G. I.
Surface of no motion and water masses in the Weddell Sea (*with* **Botnikov, V.N.**) [Transl. from Russ.], 18.3-662
Barkalova, K. N.
Relation between the number of thunderstorms and the amount of sferics that produce a field strength greater than a given level [Transl. from Russ.], 18.10-537
Bass, F. G.
Contribution to the theory of the scattering of short and medium radio waves on sea swells [Transl. from Russ.], 18.4-746
Determining the statistical parameters of sea swells from radio measurements on short and medium radio waves (*with* **Braude, S. Ia.** and

Poplavko, Iu. V.) [Transl. from Russ.], 18.4-747

Becker, U.

Latitude drift of sunspots [Transl. from German], 18.10-645

Beliaev, L. I.

Molecular removal of marine salts by sublimation [Transl. from Russ.], 18.1-666

Berényi, Dénes

Mikroklimatologie: Mikroklima der Bodennahen Atmosphäre [Transl. from Hungarian], 18.10-18

Berliand, M. E.

Forecasting the nocturnal temperature variation of the atmospheric surface boundary layer (*with* **Gracheva, V. P.**) [Transl. from Russ.], 18.7-231

Berzon, I. S.

Structure of the crust and of the upper part of the Earth's mantle from geophysical data (*with* **Veĭtsman, P. S.**) [Transl. from Russ.], 18.7-14

Bessonova, T. D.

Use of indicatometry for verifying the hypothesis of a limonite surface cover on Mars [Transl. from Russ.], 18.5-579

Bol'shakova, G. I.

Fluctuations of shimmer angle (*with* **Darchiia, Sh. P.**) [Transl. from Russ.], 18.8-332

Bonchkovskaia, T. V.

Main results of the modelling of atmospheric circulation in rotating vessels with a fluid [Transl. from Russ.], 18.1-193

Borisenkov, E. P.

On the basic possibilities of physical-statistical forecasting methods [Transl. from Russ.] 18.10-202

Borovikov, A. M.

Possibilities of radar investigation of cloud structure (*with* **Kostarev, V. V.** and **Mazin, I. P.**) [Transl. from Russ.], 18.10-112

Botnikov, V. N.

Limits of the West Wind Drift [Transl. from Russ.], 18.11-750

Bovsheverov, V. M.

Pulsation of an artificial light source in the ground layer (*with* **Gurvich, A. S.** and **Kallistratova, M. A.**) [Transl. from Russ.], 18.8-534

Braude, S. Ia.

Investigating the amplitude, phase, and frequency characteristics of short and medium radio waves signals scattered by an ocean surface (*with others*) [Transl. from Russ.], 18.4-748

Scattering of short radio waves by an agitated ocean surface (*with others*) [Transl. from Russ.], 18.3-682

Use of narrow-band spectrum analyzers for investigating the scattering of short and medium radio waves by an agitated ocean (*with* **Men', A. V.** and **Shul'ga, V. F.**) [Transl. from Russ.] 18.4-749

Broda, Engelbert

Technical applications of radioactivity, Vol. 1 (*with* **Schönfeld, T.**) [Transl. from German], 18.10-1

Brovikov, I. S.

Changes in the components of waves when reaching shallow water [Transl. from Russ.], 18.1-738

Derivation of a generalized function of the wave height distribution on the surface of a heavy liquid [Transl. from Russ.], 18.3-642

On the calculation of wind wave elements in the case of a variable wind [Transl. from Russ.], 18.2-715

Bud'ko, N. I.

Attenuation of longitudinal ion waves in plasma [Transl. from Russ.], 18.5-537

Bugaenko, L. A.

Brightness distribution in the marginal zone of Mars (*with others*) [Transl. from Russ.], 18.2-610

Intensity microphotometer based on the MF-4 (*with* **Skorik, K.E.**) [Transl. from Russ.], 18.6-593

Bugaenko, O. I.

Direct-reading recording electropolarimeter of the Main Astronomical Observatory of the Academy of Sciences of the Ukrainian SSR [Transl. from Russ.], 18.2-542

Bystrova, N. V.

Effect of atmospheric turbulence on images of extended celestial sources (*with* **Demidova, A. N.**) [Transl. from Russ.], 18.8-537

Chebotarev, Nikolai Petrovich

Theory of stream runoff [Transl. from Russ.], 18.6-10

Chernigovskiĭ, N. T.

Radiational properties of the central Arctic ice coat [Transl. from Russ.], 18.2-263

Chertov, A. G.

Units of measurement of physical quantities [Transl. from Russ.], 18.1-28

Chikovskiĭ, S. S.

Breakup of the fast ice in the Mirny area in the summer of 1965 [Transl. from Russ.], 18.11-775

Danilov, A. D.

Ionospheric hypothesis of radio emission from Venus (*with* **Iatsenko, S. P.**) [Transl. from Russ.], 18.5-557

Darchiia, Sh. P.

Scintillation observations by the Pulkovo Observatory Expeditions in the years 1956-1960 [Transl. from Russ.], 18.8-536

ębski, Kazimierza
Continental hydrology [2 vols.] [Transl. from Polish], 18.3-12
efant, A.
Propagation and mising processes in Antarctic bottom current and in Subantarctic intermediate water [Transl. from German], 18.12-694
emel, Kazimierz
Barents Sea (*with* **Rutkowicz, S.**) [Transl. from Polish], 18.3-20
emenko, A. A.
Types of cometary tails [Transl. from Russ.], 18.2-627
escartes, René
Discourse on method, Optics, Geometry, and Meteorology [Transl. from French], 18.1-6
imaksian, A. M.
Results of experimental investigations of the RD-IS instrument for radioactive measurements of current velocities [Transl. from Russ.], 18.4-765
Results of radar measurements of liquid precipitation (*with* **Zotimov, N. V.**) [Transl. from Russ.], 18.3-131
mitriev, A. A.
Approximate computation of the advective component of the thermal balance for the Arctic troposphere (*with* **Bonchkovskaia, T.V.**) [Transl. from Russ.], 18.1-180
Wind intensification in some regions of the Arctic Basin [Transl. from Russ.], 18.10-409
olgin, I. M.
Certain results of atmospheric investigations above the Arctic Ocean [Transl. from Russ.], 18.9-248
olgushin, L. D.
New data on the rates of movement of Antarctic glaciers [Transl. from Russ.], 18.11-773
orman, L. I.
Allowance for the effect of currents in radiation belts on the cutoff rigidity of cosmic rays (*with* **Tiasto, M. I.** and **Smirnov, V. S.**) [Transl. from Russ.], 18.3-587
Duration of solar cosmic ray emission from the region of generation (*with* **Miroshnichenko, L. I.**) [Transl. from Russ.], 18.3-588
oronin, Iu. P.
On the heat balance of the central Arctic, [Transl. from Russ.], 18.2-283
ovgaliuk, Iu. S.
Helicopter-borne radiometeorograph (*with* **Miukhkiuria, V. I.** and **Tiul'kova, G. A.**) [Transl. from Russ.], 18.1-103
iatskii, V. M.
Results of cosmic radio noise recording at Mirny Observatory in 1962 [Transl. from Russ.], 18.4-47

Dubovskoĭ, B. V.
Accuracy of elevation determination by surface barometric leveling in Antarctica (*with* **Lazarev, G. E.**) [Transl. from Russ.], 18.3-405
Du Castel, François
Scatter probe [Transl. from French], 18.9-173
Tropospheric radiowave propagation beyond the horizon [Transl. from French], 18.2-4
Dydina, L. A.
On the conditions for the occurrence of strong wind in the Arctic [Transl. from Russ.], 18.10-410
Substantiation of the terminology, formulations, and criteria used in verifying forecasts of meteorological elements for 3-10 days for the Arctic (*with* **Khoreva, T. M.**) [Transl. from Russ.], 18.10-241

Ekman, V. Walfrid
Adiabatic temperature gradient in the sea [Transl. from German], 18.3-647
Compressibility of sea water including some values for water and mercury [Transl. from German], 18.5-669
Eyfrig, R.
Influence of the Earth's magnetic field on the diurnal variation of f_oF2 (Fourier analysis) [Transl. from German], 18.10-552

Fomenko, Ia. A.
Variations of the annual values of maximum daily depth of snowmelt yield [Transl. from Russ.], 18.11-429
Furon, Raymond
Problema vody na zemnom share [Problem of water in the world] [Transl. from French], 18.6-32

Gachechiladze, R. G.
Anomalous polar cap absorption (*with* **Khocholova, G.M.**) [Transl. from Russ.], 18.4-469
Gaevskii, V L.
Measurement of the water temperature of the Caspian Sea with a radiation thermometer (*with* **Rabinovich, Iu. I.** and **Reshetnikov, A. I.**) [Transl. from Russ.], 18.1-649
Gavrilova, Mariia Kuz'minichna
Radiation climate of the Arctic [Transl. from Russ.], 18.11-4
Girs, A. A.
Characteristics of intra-annual transformations of macrosynoptical processes during different circulational periods [Transl. from Russ.], 18.10-304
Contributions to long-range weather forecasting in the Arctic (*with* **Dydina, L. A.**) (*eds.*) [Transl. from Russ.], 18.10-37

Intra-periodical transformation of the atmospheric circulation and their causes [Transl. from Russ.], 18.10-305

Glushkova, E. P.
Location of the auroral zone current as a function of storm intensity [Transl. from Russ.], 18.5-426

Gopshteĭn, N. M.
Recording spectrophotometer for ground and balloon measurements of the brightness of the daytime sky (*with* **Kushpil', V. I.**) [Transl. from Russ.], 18.10-368

Gordienko, P. A.
Scientific observations from, and the nature of drift of the "North Pole" stations [Transl. from Russ.], 18.9-22

Grosskopf, J.
Zenith radar study of the structure of the troposphere (*with* **Fehlhaber, L.**) [Transl. from German], 18.12-103

Gurvich, A. S.
Frequency spectrum of small-scale temperature pulsations (*with* **Kravchenko, T. K.**) [Transl. from Russ.], 18.10-159

Iakovkin, N. A.
Resonance scattering of solar radiation in prominences (*with* **Zel'dina, M. Iu.**) [Transl. from Russ.], 18.5-612

Ianes, A. V.
Melting of snow and ice in the central Arctic [Transl. from Russ.], 18.9-456

Ianovitskiĭ, E. G.
Approximate solution of the problem of diffuse reflection and transmission of light in planetary atmospheres with an arbitrary scattering indicatrix [Transl. from Russ.], 18.2-281
On the aerosol component of the Martian atmosphere [Transl. from Russ.], 18.5-580

Ignatov, V. S.
Results of ionospheric geophysical investigations in the central Arctic (*with* **Miliaev, N. A.** and **Nikol'skiĭ, A. P.**) [Transl. from Russ.], 18.9-537

Ivanovskiĭ, A. I.
Interaction between an instrument cavity and a flow of rarefied gas [Transl. from Russ.], 18.12-89

Izakov, M. N.
Certain problems entailed in studying the structure of the upper atmosphere [Transl. from Russ.], 18.2-191

Kanter, Helmuth
Libyen: eine geographisch-medizinische Landeskunde [Libya: a geomedical monograph] [Transl.] [In German and English], 18.11-13

Karus, E. V.
Exploration geophysics [Transl. from Russ.], 18.7-14

Kepler, Johann
Six-cornered snowflake [Transl. from Latin], 18.1-9

Keshishev, V. N.
Runoff in eastern Cuba [Transl. from Russ.], 18.1-770

Khoreva, T. M.
Characteristics of atmospheric processes and the weather regime in the Arctic during periods of uniform circulation and their dependence on the prior development of easterly and meridional forms [Transl. from Russ.], 18.10-306

Khrgian, A. Kh.
Physical meteorology [Transl. from Russ.], 18.7-14

Khvostikov, I. A.
Achievements of Science: Geophysics, 1962 (*ed.*) [Transl. from Russ.], 18.7-14

Kiianovskiĭ, M. P.
Estimate of vertical drift velocity in the ionosphere from measurements of the phase variations of magneto-ionic components [Transl. from Russ.], 18.4-478

Klepikov, V. V.
Water circulation in the Ross Sea (*wit* **Grigor'ev, Iu. A.**) [Transl. from Russ.], 18.8-707

Kmito, A. A.
Methods of investigating the atmosphere wit rockets and satellites [Transl. from Russ.] 18.6-11

Kondrat'ev, K. Ia.
Approximate evaluation of the influence exerte by the albedo inhomogeneity on streams o receding shortwave terrestrial radiation (*wit* **Fedorova, M. P.**) [Transl. from Russ.], 18.2 273
Some questions on thermal atmosphere soundin (*with* **Timofeev, Iu. M.**) [Transl. from Russ.] 18.5-261

Kondratiuk, S. I.
Intensity of cyclones and anticyclones in th Arctic Basin during the navigational perio (*with* **Panchugin, R. G.**) [Transl. from Russ.) 18.10-323

Konstantinov, A. R.
Evaporation in nature [Transl. from Russ.] 18.10-13

Koptev, A. P.
On the radiation properties of clouds (*wit* **Voskresenskiĭ, A. I.**) [Transl. from Russ. 18.2-282

Koridalin, E. A.
General seismology [Transl. from Russ.], 18.7-1

orotkevich, E. S.
Standardizing terminology for the relief forms of the ice shelves of Antarctica (*with* **Koblents, Ia. P.**) [Transl. from Russ.], 18.4-758
orzhov, V. A.
Some results of use of radar observations for evaluating the success of artificial modification of convective clouds [Transl. from Russ.], 18.1-142
orzun, V. I.
Effect of slope exposure on the surface runoff of snowmelt [Transl. from Russ.], 18.3-492
ostik, R. I.
On the H α line excitation mechanism in the solar chromosphere [Transl. from Russ.], 18.5-623
On the mechanism of emission border formation in filaments (*with* **Orlova, T. V.**) [Transl. from Russ.], 18.12-649
otliakov, Vladimir Mikhaĭlovich
Snow cover of the Antarctic and its role in the present-day glaciation of the continent [Transl. from Russ.], 18.8-30
oval', I. K.
Brief analysis of a photometric study of brightness distribution across the Martian disk [Transl. from Rus.], 18.5-581
On the study of the optical properties of the atmosphere and surface of Mars [Transl. from Russ.], 18.2-613
ovalev, E. E.
Shielding an astronaut against electrons and bremsstrahlung in the terrestrial radiation belt [Transl. from Russ.], 18.2-35
ozhevnikov, N. I.
Some results of direct observations of refractional fluctuations in the ground layer and the distribution parameters of the fluctuations [Transl. from Russ.], 18.9-229
inov, E. L.
Giant meteorites [Transl. from Russ.], 18.4-8
omov, S. P.
Climatology [Transl. from Russ.], 18.7-14
cherov, N. I.
Effect of synoptic fronts on seeing [Transl. from Russ.], 18.9-273
klin, G. V.
Possibility of determining the amplitude of the regular diurnal variation of cosmic-ray intensity (*with* **Luzov, A. A.**) [Transl. from Russ.], 18.3-593
petskiĭ, V. N.
nterconnection between atmospheric fronts and the ice edge in the Antarctic [Transl. from Russ.], 18.8-31
rmaeva, A. Kh.
stroclimatic characteristics of the Chechekty site in Eastern Pamir (*with* **Darchiia, Sh. P.**) [Transl. from Russ.], 18.8-432
Kushpil', V. I.
Ground measurements of the angular distribution and spectral composition of diffuse sky radiation [Transl. from Russ.], 18.10-369
Kuzin, P. S.
Effect of agrotechnical practices on river flow [Transl. from Russ.] 18.3-702
Kuznetsov, A. V.
Frontal interfaces in the Arctic Basin and their relation to synoptic process types (*with others*) [Transl. from Russ.], 18.10-345

Lambert, G.
Direct identification of radioactive nuclides in sea water by gamma spectrography (*with others*) [Transl. from French], 18.4-718
Lebedeva, I. I.
Using spectrophotometric data to verify the hypothesis of a limonite covering on Mars [Transl. from Russ.], 18.5-582
Ledenev, V. G.
Changes in the West and Amery ice shelves (*with* **Evdokimov, A. P.**) [Transl. from Russ.], 18.11-776
Structure and circulation of waters in Alasheyev Bight (in the Sea of Cosmonauts) [Transl. from Russ.], 18.3-660
Leonov, Aleksandr Kuz'mich
Sea of Okhotsk [Transl. from Russ.], 18.4-699
Leushin, N. I.
Explanation of the causes of non-correspondences of sferics centers and weather conditions [Transl. from Russ.], 18.10-541
Li, Li-bin
Note on the non-uniqueness of the Umkehr method B (*with* **Huang, X.** and **Li, J.**) [Transl. from Chinese], 18.10-273
Liubimova, E. M.
Arsenic in Black Sea water [Transl. from Russ.], 18.1-686
Vertical distribution of organic phosphorus in Black Sea water [Transl. from Russ.], 18.1-685
Lysenko, K. A.
Ground-water flow of Ukrainian rivers [Transl. from Russ.], 18.3-710

Maduev, V. L.
Differential magnetic analyzer of low-energy electrons and protons (*with* **Savenko, I. A.** and **Tel'tsov, M. V.**) [Transl. from Russ.], 18.3-597
Maksimov, I. V.
Causes of sudden break of Antarctic ice shelves [Transl. from Russ.], 18.3-694

Mandel'shtam, S. L.
X-radiation of a quiet Sun (*with others*) [Transl. from Russ.], 18.1-599
Marchaj, C. A.
Sailing theory and practice [Transl. from Polish], 18.5-11
Marshunova, M. S.
Principal characteristics of the radiation balance of the underlying surface and of the atmosphere in the Arctic [Transl. from Russ.], 18.2-255
Variability of solar radiation in the Arctic [Transl. from Russ.], 18.2-258
Mikhailov, A. A.
Physics of the solar system (Course in astrophysics and stellar astronomy, Vol. 3) (*ed.*) [Transl. from Russ.], 18.11-2
Minina, L. S.
High-level mesovortex and some of its characteristics [Transl. from Russ.], 18.6-301
Molchanov, O. A.
Amplitudinal distribution of an envelope of an impulse signal at the output of a narrow-band system [Transl. from Russ.], 18.3-97
Monin, A. S.
Dynamic and synoptic meteorology [Transl. from Russ.] 18.7-14
Morozhenko, A. V.
Determination of optical parameters of the atmosphere and surface of Mars (*with* **Ianovitskii, E. G.**) [Transl. from Russ.], 18.2-616
Results of polarimetric observations of Mars in 1962-1963 [Transl. from Russ.], 18.2-617
Taking account of scattering anisotropy in determining the optical parameters of the Martian atmosphere and surface (*with* **Ianovitskii, E. G.**) [Transl. from Russ.], 18.5-583
Morozhenko, N. N.
Comparison of faint and bright prominences [Transl. from Russ.], 18.12-650

Nudel'man, A. V.
Soviet Antarctic Expeditions 1959-1961 [Transl. from Russ.], 18.5-42

Odnovalov, S. P.
Special architectural design characteristics of Arctic settlements with artificial microclimate (*with* **Tsimbal, M. V.**), 18.1-362
Ostrovskii, I. E.
Amount of frequency shift occurring when radio waves are scattered by an ocean surface (*with* **Zamaraev, B. D.**) [Transl. from Russ.], 18.4-750
Ovezgel'dyev, O.
Relationship between E_s and magnetic field variations [Transl. from Russ.], 18.4-488

Pagava, S. T.
Bases of the synoptic method of seasonal weather forecasting (*with others*) [Transl. from Russ.], 18.6-12
Petrov, M. P.
Once again about the desiccation of Asia [Transl. from Russ.], 18.1-366
Plashchev, A. V.
Thermal regime of Crimean rivers and influence on it of karst water feeding [Transl. from Russ.], 18.11-780
Ponomarenki, I. N.
Characteristics of frontal clouds susceptible to modification of natural precipitation (*with* **Koshenko, A. M.** and **Zabolotskaia, T. N.**) [Transl. from Russ.], 18.10-465
Potapova, E.
Circulation characteristics at the southern tip of the Crimea (*with* **Potapov, N. S.**) [Transl. from Russ.], 18.1-285
Potemkin, I. G.
Apparatus for automation of radar observations [Transl. from Russ.], 18.2-131
Prokh, L. Z.
Separate measurement of upward and downward radiation fluxes [Transl. from Russ.], 18.10-154
Prokof'ev, V. K.
Spectroscopic investigation of the composition of the atmosphere of Venus [Transl. from Russ.], 18.5-577

Radzikhovskaia, M. A.
Basic features of water structure in the North Pacific Ocean [Transl. from Russ.], 18.11-751
Ragozin, A. I.
Prevailing trajectories of cyclones and anticyclones during standard synoptic processes in the Arctic (*with* **Chukanin, K. I.**) [Transl from Russ.], 18.10-327
Ragozina, V. S.
Characteristics of synoptic processes in periods preceding anamalous fall seasons in the eastern Arctic [Transl. from Russ.], 18.10-52
Rapaport, V. O.
Radio noise originating in the ionosphere during ionization by corpuscular streams (*with* **Eidman, V. Ia.**) Transl. from Russ.], 18.3-62
Ray, I. A.
Turbidity, transparency and color of water in the estuary area (*with* **Bondar, K.**) [Transl from Russ.], 18.9-682

mskaia-Korsakova, T. V.
Airports of the Far North [Transl. from Russ.], 18.1-61
Layout of built-up areas in towns of the Far North [Transl. from Russ.], 18.1-371
ɔs', U. S.
On the position of the level of maximum current velocity in the vertical during the period of freeze-up [Transl. from Russ.], 18.3-704

Elliot, H., 18.4-563
White, R. S., 18.5-497
Lundbak, A., 18.11-646
Radiation belt proton intensities
Krimigis, S. M. et al., 18.1-499
Radiation belt protons
Willis, D. M., 18.8-586
Vernov, S. N. et al., 18.11-651
Radiation belt shielding
Kovalev, E. E., 18.2-35
Radiation belts
Van Allen, J. A., 18.4-579
Radiation belts - geomagnetic relationships
Craven, J. D., 18.1-502
Radiation belts on planets
Reiffel, L., 18.4-575
Radiation belts-upper atmosphere relationships
Timofeev, G. A., 18.11-648
Radiation budget
Vowinckel, E. et al., 18.7-371
Katayama, A., 18.7-387; 18.10-354
Radiation budget of Arctic Ocean
Vowinckel, E. et al., 18.1-224
Radiation calculations
Gupta, M. G., 18.2-252
Katayama, A., 18.7-387
Krasiuk, V. S., 18.11-291
Radiation charts
Wörner, H., 18.6-337
Radiation climate
Lee, R. et al., 18.3-354
Radiation climatology
Fletcher, J. O., 18.3-57
Kauf, H., 18.3-386
Latimer, J. R. et al., 18.9-278
Radiation conferences
Symposium on Radiation Processes in the Atmosphere, Leningrad, Aug. 5-12, 1964, 18.4-365
Avaste, O. A. et al., 18.6-148
International Symposium on Solar Radiation Simulation, lst, Los Angeles, Calif., Jan. 1965, 18.7-11
Radiation data
Australia. Bureau of Meteorology, 18.5-106
Radiation diagrams
Zdunkowski, W. G. et al., 18.10-91
Radiation distribution
De Lisle, J. F., 18.8-280
Zdunkowski, W. G. et al., 18.8-293
Radiation effects on buildings
Degelman, L. O., 18.9-51
Murav'eva, G. I. et al., 18.9-283
Buchberg, H. et al., 18.11-290
Valko, P., 18.12-271
Radiation effects on clouds
Zách, A., 18.9-428
Radiation effects on general circulation
Suomi, V., 18.7-337
Winston, J. S., 18.7-372
Katayama, A., 18.10-354
Radiation effects on man
Hamilton, W. J. III et al., 18.5-247
Radiation effects on plants
Uchijima, Z., 18.2-256
Radiation effects on snow melt
Khaĭrullin, K. Sh., 18.10-509
Radiation effects on space flight
Adams, D. A. et al., 18.5-59
Radiation effects on temperature
Kish, A. J., 18.3-359
Radiation equilibrium temperature calculations
Zdunkowski, W. G., 18.5-89

Rossby waves
Veronis, G., 18.1-737

Rossby waves in oceanic circulation
Blandford, R., 18.4-753

Rotating fluid experiments
Hide, R., 18.5-235; 18.7-315
Pfeffer, R.L. et al., 18.7-317

Rotating fluid motion
Phillips, N.A., 18.1-179
Williams, G.P., 18.8-607; 18.9-241
Kamenkovich, V.M., 18.10-285

Rotating interferometers
Whale, H.A. et al., 18.3-99

Rotation anemometers
Dahlem, Th. et al., 18.12-130

Rotation of Mercury
Cruikshank, D.P. et al., 18.12-589
Soter, S. et al., 18.12-590

Rotation of solar atmosphere
Ferraro, V.C.A. et al., 18.8-656

Rotation of stellar atmospheres
Ferraro, V.C.A et al., 18.8-656

Rotation of the atmosphere - upper air density relationships
May, B.R., 18.1-151

Rotation of the upper atmosphere
King-Hele, D.G. et al., 18.5-200, 201; 18.7-293

Rotation of Venus
Shapiro, I.I., 18.11-702

Rotational temperatures
Panda, M. Ch., 18.1-618

Rotational temperatures of sunspots
Schadee, A., 18.1-607

Roughness coefficient of rivers
Barnes, H.H., Jr., 18.10-726

Rubidium vapor magnetometers
Farthing, W.H. et al., 18.11-593

Runoff calculations
Denisov, V.M., 18.9-68
Astakhova, N.I. et al., 18.12-330

Runoff composition
Matveev, A.A., 18.12-354

Runoff forecasting
Lylo, V.M., 18.5-172
Allison, S.V., 18.8-188
Schreiber, H.A. et al., 18.9-197

Runoff formation
Drozd, N.I., 18.2-738

Runoff hydrographs
Brakensiek, D.L., 18.8-732

Runoff measurement techniques
Eagleson, P.S. et al., 18. 170

Runoff measurements
Lang, H., 18.2-347

Runoff - soil relationships
Nosenkov, A.I., 18.2-354

Runway clutter
Harrison, H.T., 18.8-42

Runway icing protection
Harrison, H.T., 18.8-42

Runway visual range
Schlatter, E.E., 18.6-499

Ruthenium-106 in the atmosphere
Rao, M.N. et al., 18.5-213

Rydberg absorption series o nitrogen
Carroll, P.K. et al., 18.4-608

S

S-current system
Gupta, J. C., 18.11-497

SD variations
Akasofu, S. I. et al., 18.8 587
Fel'dshteĭn, Ia. I. et al. 18.10-603
Loginov, G. A., 18.11-611

Sq current system
Van Sabben, D., 18.1-399
Ádám, A., 18.1-488
Kamiyama, H., 18.6-265
Hibberd, F. H. et al., 18.9 535
Rudneva, N. M., 18.11-606

Sq currents
Davis, T. N. et al., 18.4-598

Sq variations
Bossolasco, M. et al., 18.8-545
Fel'dshteĭn, Ia. I. et al., 18.10-603

Sq variations of telluric currents
Ádám, A., 18.1-488

Sacramento Peak Observatory New Mexico
Evans, J. W., 18.6-597

Sagamore Hill Solar Radio Observatory, Massachusetts
Castelli, J. P. et al. 18.6-596

Sailing
Marchaj, C. A., 18.5-11
Sailing weather
Holford, I., 18.7-21
Watts, A., 18.7-429
St. Elmo's fire
Botley, C. M., 18.3-46
St. Mesmin gas
Heymann, D. et al., 18.5-595
St. Severin meteorite (June 1966)
Begemann, F. et al., 18.5-597
Saint Venant's equations
Koren', V. I., 18.9-729
aline lakes
Sokolovskiĭ, L. G. et al., 18.1-761
aline nuclei origin
Toba, Y., 18.6-427
aline water conversion, *see* **Desalinization of sea water**
alinity anomalies
Miller, A. R., 18.6-687
Swallow, J. C. et al., 18.12-703
alinity calculations
Accerboni, E. et al., 18.11-742
alinity data
Calif. Univ. Scripps Institution of Oceanography, La Jolla, 18.1-639
Hollister, H. J., 18.5-640; 18.7-685
alinity distribution
Ivanov, Iu. A., 18.3-656
Baryshevskaia, G. I., 18.12-701
Duxbury, A. C. et al., 18.12-704
alinity gradients
Botnikov, V. N., 18.11-750
alinity maps
Panov, V. V. et al., 18.2-710
alinity measurements
Houtman, Th. J., 18.3-672
alinity of interstitial water
Johnson, R. G., 18.7-732
alinity of sea water
Tsurikova, A. P., 18.1-665
Morcos, S. A. et al., 18.1-672
alinity profiles
Kosarev, A. N. et al., 18.4-723
Zakharov, V. F. et al., 18.4-760
Munns, R. G. et al., 18.12-696
Baryshevskaia, G. I., 18.12-701
Salinity - silicate relationships
Silva, P. M. da., 18.5-720
Salinity structure
Kosarev, A. N. et al., 18.4-723
Hamon, B. V., 18.8-706
Salinity variations
Houtman, Th. J., 18.3-672
LaViolette, P. E. et al., 18.7-694
Salinometers
Park, K. et al., 18.1-55
Antonova, L. M. et al., 18.2-671
Pavlenko, Iu. V., 18.6-650
Cox, R. A. et al., 18.8-691
Salt content of ground water
De Ridder, N. A. et al., 18.8-734
Salt content of soil
De Ridder, N. A. et al., 18.8-734
Salt laden air properties
Woodcock, A. H. et al., 18.6-435
Sand dune formation
Kadib, A.-L. A., 18.3-425
Sand dune microclimatology
Tsuriell, D. E., 18.8-447
Sand dune - wind relationships
Pernarowski, L., 18.6-291
Sand transport by wind

CUMULATIVE GEOGRAPHICAL INDEX

Vol. 18, No. 1-12, Jan.-Dec. 1967

This index is arranged according to the Universal Decimal Classification (UDC). The following is a broad outline of the arrangement:

(2)	Physiographical Regions	(4)	Europe
(213)	Tropical Regions	(5)	Asia
(215)	Hemispheres	(6)	Africa
(23)	Mountains	(7)	North America
(26)	Oceans, Seas and Interconnections	(8)	South America
(282.2)	Rivers	(9)	Australasian, Oceanian, Arctic and Antarctic Regions

The UDC subdivides each of the above listed areas numerically. Mountains and rivers may be found under (2) Physiographical Regions as well as under their respective countries.

(2) **PHYSIOGRAPHICAL REGIONS**

(213) TROPICAL REGIONS, 18.2-180; 18.3-22; 18.4-304, 397, 482; 18.5-31, 73, 74, 278, 630; 18.7-539; 18.8-118, 258, 410, 482; 18.9-20, 85; 18.10-417; 18.11-171, 453, 617

(215) HEMISPHERES

(215-11) **Eastern Hemisphere**, 18.4-332; 18.6-129; 18.10-308

(215-13) **Southern Hemisphere**, 18.1-272, 521; 18.3-180, 314, 494; 18.4-128, 299, 336, 344, 442; 18.5-110; 18.6-129, 298, 299, 381; 18.7-219; 18.8-243; 18.9-178, 249, 326; 18.10-312; 18.12-243, 244

(215-15) **Western Hemisphere**, 18.4-378; 18.5-296
- Northern Western Hemisphere, 18.6-124

(215-17) **Northern Hemisphere**, 18.1-244, 352, 378, 441; 18.3-39, 221, 223, 234, 244, 245, 329, 494; 18.4-283, 336; 18.5-100, 161, 213, 241, 286; 18.6-28, 253, 484, 689; 18.7-120, 387, 556; 18.8-164, 243, 361; 18.9-138, 332, 334, 451, 500; 18.10-270, 288, 299, 304, 312, 354, 385, 398, 602, 605; 18.11-113, 274, 434, 451, 621; 18.12-253, 287, 292, 327, 402

(23) MOUNTAINS

(234) **Mountains of Europe**, *see also* (4)
- Alps, 18.3-438; 18.5-54; 18.9-109, 350, 445; 18.10-503; 18.11-299; 18.12-368, *see also* (436)
  - Eastern Alps, 18.3-503
  - Ötztal Alps, 18.6-462
- Carpathians, 18.6-720; 18.9-193, 428, 484; 18.10-23, 337, 346, 347, *see also* (438) and (477)
  - Eastern Carpathians, 18.6-449
  - Western Carpathians, 18.3-373
- Erz, 18.1-775; 18.8-413
- Sudetic, 18.2-337; 18.10-293
- Tatra, 18.3-374; 18.9-351, 449, 487, *see also* (438)
  - Hala Gąsienicowa, 18.9-448
  - Kasprowy, 18.4-171; 18.9-454
- Transylvanian Alps, 18.9-485

(235) **Mountains of Asia**, *see also* (5)
- Altai, 18.6-730, 18.7-475, 718
- Himalayas
  - Punjab Himalayas, 18.2-342
- Little Khingan, 18.2-360

- Pamirs, 18.1-160; 18.8-332, *see also* (575.3)
  - Chechekty Pass, 18.8-432
- Tien Shan, 18.1-349; 18.6-164; 18.9-336
  - Western Tien Shan, 18.6-457; 18.9-117

(237) **Mountains of North America**, *see also* (7)
- Cordilleras, 18.10-519, *see also* (73)
- Rockies, 18.1-131; 18.4-209, 387; 18.7-194; 18.10-504, *see also* (712.3)
- St. Elias, 18.9-446, *see also* (712.1)

(238) **Mountains of South America**, *see also* (8)
- Andes, 18.4-395, *see also* (85)

(252) DESERTS, *see* respective continents

(26) OCEANS, SEAS AND INTERCONNECTIONS

(261) **Atlantic Ocean**, 18.1-161, 296, 675, 743, 745; 18.3-637; 18.4-246, 701, 743; 18.5-664, 678, 690; 18.7-458; 18.8-257, 355, 700, 704; 18.9-677; 18.10-70, 307, 311, 350, 681, 684; 18.11-180, 754; 18.12-16, 184, 291, 687, *see also* (269.4)

(261:213) Tropical Atlantic, 18.1-217, 286, 515, 656, 687, 704, 705, 712, 713, 715, 726, 746; 18.3-33, 321, 412, 638, 675, 683; 18.4-723; 18.5-234; 18.6-317, 389; 18.7-289, 412, 565; 18.8-701; 18.10-702; 18.12-712
- Subtropical Atlantic, 18.12-710

(261.1) North Atlantic, 18.1-184, 196, 197, 203, 650, 714, 727; 18.2-237, 371, 690; 18.3-322, 667, 669, 670, 680; 18.4-145, 709, 717; 18.5-21, 154, 284, 638, 643; 18.6-123, 208, 305, 313, 328, 369, 379, 692; 18.7-7, 510, 709; 18.9-380, 703; 18.10-310, 679, 687, 692; 18.11-265, 266, 383; 18.12-30, 691

(261.2) Northeast Atlantic, 18.1-707; 18.6-327; 18.7-718, 720; 18.8-164; 18.9-681; 18.10-675, 683; 18.12-692
- Faeroe Channel, 18.9-695

(261.24) Baltic Sea, 18.1-653, 657; 18.2-730; 18.4-124, 724; 18.5-639; 18.6-209, 690; 18.7-421, 706, 711, 719; 18.8-386, 18.9-698; 18.10-680, 704; 18.11-45, 744, 745; 18.12-717, 720
- Courland Lagoon, 18.5-691; 18.7-733
- Lübeck Bay, 18.11-741
- Stettin Lagoon, 18.7-733
- Vistula Lagoon, 18.7-733

(261.243) Gulf of Finland, 18.3-263, 665, 708; 18.9-706

(261.248) Kattegat, 18.2-717

(261.26) North Sea, 18.3-330; 18.4-124; 18.5-639, 702, 710; 18.6-671; 18.7-728; 18.8-189; 18.11-45, 741, 767

(261.262) German Bight and Friesian Island waters, 18.6-114

(261.268) English Channel, 18.7-729; 18.10-668; 18.11-767
- Channel Islands, *see* (420)

(261.27) Irish Sea and coastal waters of West British Isles, 18.11-767; 18.12-688

(261.274) Irish Sea (central) and coastal waters of, 18.5-673, 703

(261.4) Northwest Atlantic, 18.1-126, 660, 699, 711, 725; 18.2-708, 728; 18.3-424, 646; 18.4-740; 18.5-645, 698; 18.6-659; 18.7-453, 714, 716; 18.8-23, 708, 714; 18.9-195; 18.11-281, 752; 18.12-34, 662, 706
- Grand Banks region, 18.5-648
- Plantagenet Bank, 18.6-683, 688
- Sable Bank, 18.10-670

(261.44) Gulf of St. Lawrence, 18.5-692; 18.12-680, 712

(261.452) Bay of Fundy, 18.9-680

(261.46) Coastal waters of East U.S.

  Adélie Coast, 18.12-316
  Amery Ice Shelf, 18.3-692; 18.10-710
  Amundsen-Scott Station, 18.6-463; 18.12-45
  Argentine Islands, 18.7-589
  Australian Antarctic Territory, 18.7-132
  Byrd Station, 18.11-358; 18.12-517
  Cape Hallett, 18.1-416; 18.8-450
  Charcot Station, 18.8-245
  Davis, 18.2-285
  Douglas, 18.2-491
  Hallett, 18.4-501

Halley Bay, 18.1-20
Horlick Mts., 18.6-703
Little America V, 18.10-124; 18.12-45
McMurdo Sound, 18.5-41; 18.7-109, 635; 18.11-319
Mawson, 18.4-501
Mirny, 18.4-47; 18.6-530, 553; 18.8-229, 423
Norway Station, 18.8-449
Pensacola Mts., 18.6-703
Queen Maud Land, 18.3-59
Schirmacher Oasis, 18.8-446; 18.11-417, 422
Scott Base, 18.4-501
South Polar Plateau, 18.11-355
South Pole, 18.1-344
Subantarctic regions, *see* (699.1)
Victoria Land, 18.7-738; 18.11-36
Vostok, 18.5-535
Wilkes Land, 18.4-18
Wilkes Station, 18.7-160

METEOROLOGICAL AND GEOASTROPHYSICAL ABSTRACTS

MALCOLM RIGBY, EDITOR

Volume 18, 1967

Published monthly at Prince and Lemon Streets, Lancaster, Pa.
by the AMERICAN METEOROLOGICAL SOCIETY
45 Beacon Street, Boston, Mass. 02108

This index was printed and bound by the Cornelius Printing Co.
Silver Spring, Md.

Issued and covers printed by: Lancaster Press, Inc.

TABLE OF CONTENTS

Vol. 18, 1967

Number	Month	Page	Current Abstracts item number
1	Jan.	1	18.1–1 to 18.1–776
2	Feb.	267	18.2–1 to 18.2–750
3	March	519	18.3–1 to 18.3–714
4	April	773	18.4–1 to 18.4–772
5	May	1033	18.5–1 to 18.5–743
6	June	1291	18.6–1 to 18.6–732
7	July	1553	18.7–1 to 18.7–755
8	Aug.	1817	18.8–1 to 18.8–737
9	Sept.	2079	18.9–1 to 18.9–739
10	Oct.	2335	18.10–1 to 18.10–742
11	Nov.	2603	18.11–1 to 18.11–784
12	Dec.	2885	18.12–1 to 18.12–754
	Jan.–Dec.	3151	**Author and Subject Indexes**

SELECTED LIST OF SERIAL PUBLICATIONS MOST FREQUENTLY CITED IN METEOROLOGICAL AND GEOASTROPHYSICAL ABSTRACTS

These serial publications regularly contain an abundance of material on meteorology and geoastrophysics. The form used in *MGA* is given below.

- Acta Climatologica, Szeged, Hungary
- Acta Geophysica Polonica, Warsaw
- Acta Meteorologica Sinica, Peking
- Advances in Geophysics, N. Y.
- Advances in Space Science and Technology, N. Y.
- Agricultural Meteorology, Amsterdam
- Akademiia Nauk SSSR, Doklady, Ser. Matematika, Fizika
- Akademiia Nauk SSSR. Izvestiia. Fizika Atmosfery i Okeana
- Akademiia Nauk SSSR. Izvestiia. Fizika Zemli
- Akademiia Nauk SSSR. Izvestiia. Ser. Geogr.
- Akademiia Nauk SSSR. Izvestiya. Atmospheric and Oceanic Physics
- Akademiia Nauk SSSR. Institut Okeanologii, Trudy
- Akademiia Nauk SSSR. Mezhduvedomstvennyĭ Geofizicheskiĭ Komitet, Rezul'taty Issledovaniĭ po Programme MGG [Various series]
- Akademiia Nauk Ukrainskoĭ RSR. Morskoĭ Gidrofizicheskiĭ Institut, Trudy
- American Geophysical Union, Geophysical Monographs
- American Geophysical Union, Transactions
- American Meteorological Society, Bulletin
- Angewandte Meteorologie, Berlin
- Annales d'Astrophysique, Paris
- Annales de Géophysique, Paris
- Annali di Geofisica, Rome
- Archiv für Meteorologie, Geophysik und Bioklimatologie, Ser. A [and] Ser. B, Vienna
- Arkiv för Geofysik, Stockholm
- Astronomical Journal, New Haven, Conn.
- Astronomicheskiĭ Zhurnal, Moscow
- Astrophysical Journal, Chicago
- Australian Journal of Physics, Melbourne
- Australian Meteorological Magazine, Melbourne
- Beiträge zur Geophysik, Leipzig
- Beiträge zur Physik der Atmosphäre, Frankfurt a.M.
- Bulgaria. Institut po Khidrologiia i Meteorologiia, Izvestiia
- Bulletin de Géophysique, Montreal
- Canada. Meteorological Branch, Circular
- Canadian Journal of Physics, Ottawa
- Ciel et Terre, Brussels
- Dal'nevostochnyĭ Nauchno-Issledovatel'skiĭ Gidrometeorologicheskiĭ Institut, Vladivostok, Trudy
- Deutsche Hydrographische Zeitschrift, Hamburg
- France. Comité Central d'Océanographie et d'Etude des Côtes, Cahiers Océanographiques
- France. Météorologie Nationale, Monographies
- Geofisica et Meteorologia, Genoa
- Geofysiske Publikasjoner, Oslo
- Geograficheskoe Obshchestvo SSSR, Izvestiia
- Geomagnetism and Aeronomy, Wash., D. C.
- Geomagnetizm i Aeronomiia, Moscow
- Geophysica, Helsinki
- Geophysical Journal, London
- Geophysical Magazine, Tokyo
- Germany (Federal Republic). Deutscher Wetterdienst, Berichte
- Germany (Federal Republic). Deutscher Wetterdienst, Mitteilungen
- Great Britain. Meteorological Office, Scientific Papers
- Hamburg. Seewetteramt, Einzelveröffentlichungen
- Helsinki. Universitet. Meteorologiska Institutet, Mitteilungen
- Hidrotehnica, Gospodărirea Apelor, Meteorologia, Bucharest
- Hungary. Országos Meteorológiai Intézet, Hivatalos Kiadványai
- Időjárás, Budapest
- Indian Journal of Meteorology and Geophysics, Delhi
- International Journal of Biometeorology, Amsterdam
- Japan. Science Council. Ionosphere Research Committee, Report of Ionosphere and Space Research in Japan
- Journal de Mécanique et de Physique de l'Atmosphère Paris
- Journal de Recherches Atmosphériques, Clermont-Ferrand
- Journal of Agricultural Meteorology, Tokyo
- Journal of Applied Meteorology, Boston
- Journal of Geomagnetism and Geoelectricity, Kyoto, Japan
- Journal of Geophysical Research, Wash., D. C.
- Journal of Glaciology, Cambridge, England
- Journal of Hydrology, Amsterdam
- Journal of Marine Research, New Haven
- Journal of Meteorological Research, Tokyo
- Journal of the Atmospheric Sciences, Boston
- Khidrologiia i Meteorologiia, Sofia
- Kiev. Ukraine. Nauchno-Issledovatel'skiĭ Gidrometeorologicheskiĭ Institut, Trudy
- Kosmicheskie Issledovaniia, Moscow
- Leningrad. Glavnaia Geofizicheskaia Observatoriia, Trudy
- Leningrad. Gosudarstvennyĭ Gidrologicheskiĭ Institut, Trudy
- Leningrad. Nauchno-Issledovatel'skiĭ Institut-Aeroklimatologii, Trudy
- Limnology and Oceanography, Lawrence, Kan.
- Marine Observer, London
- Meteoritika, Moscow
- Meteorological Magazine, London
- Meteorological Monographs, Boston
- Meteorological Society of Japan, Tokyo, Journal
- Meteorologické Zprávy, Prague
- Météorologie, Paris
- Meteorologiia i Gidrologiia, Moscow
- Meteorologische Rundschau, Berlin
- Monthly Weather Review, Wash., D. C.
- Moscow. Gosudarstvennyĭ Okeanograficheskiĭ Institut, Trudy
- Moscow. Tsentral'naia Aerologicheskaia Observatoriia, Trudy
- Moscow. Tsentral'nyĭ Institut Prognozov, Trudy
- Nagoya. Univ. Research Institute of Atmospherics, Proceedings
- Netherlands Journal of Sea Research, Den Helden
- New Zealand Journal of Geology and Geophysics, Wellington
- Oceanographical Society of Japan, Tokyo, Journal
- Oceanography and Marine Biology, London
- Okeanologiia, Moscow
- Planetary and Space Science, Oxford
- Problemy Arktiki i Antartiki, Leningrad
- Progress in Oceanography, Oxford
- Przegląd Geofizyczny, Warsaw
- Pure and Applied Geophysics, Basel
- Radio Science, Wash., D. C.
- Reviews of Geophysics, Wash., D. C.
- Rivista di Meteorologia Aeronautica, Rome
- Royal Meteorological Society, London, Quarterly Journal
- Rumania. Institutul Meteorologic, Bucharest, Culegere de Lucrări
- Sendai, Japan. Tohoku Univ., Science Reports, 5th Ser., Geophysics
- Soviet Hydrology: Selected Papers, Wash., D. C.
- Space Science Reviews, Dordrecht, Holland
- Sredneaziatskiĭ Nauchno-Issledovatel'skiĭ Gidrometeorologicheskiĭ Institut, Trudy
- Studia Geophysica et Geodaetica, Prague
- Tellus, Stockholm
- Water Resources Research, Wash., D. C.
- Weather, London
- Weatherwise, Boston
- Wetter und Leben, Vienna
- World Meteorological Organization, Technical Notes
- World Meteorological Organization. WMO Bulletin
- Zeitschrift für Meteorologie, Berlin

TABLE OF CONTENTS

Meteorological and Geoastrophysical Abstracts

Volume 18, INDEXES, Jan.–Dec. 1967

Errata ii

List of Bibliographies published in Vol. 1, No. 1, Jan. 1950–Vol. 12, No. 12, 1964 iii

CUMULATIVE INDEXES

CUMULATIVE AUTHOR INDEX 3151

List of authors with titles of articles and number of entry

CUMULATIVE TRANSLATIONS INDEX 3493

CUMULATIVE SUBJECT INDEX 3503

List of subjects with authors and number of entry

CUMULATIVE GEOGRAPHIC INDEX 3755

List of geographic places used as subjects and number of entry

LIST OF PERIODICALS REGULARLY ABSTRACTED .... Cover 3
